

USING ACADEMX PUBLISHING SERVICES

Academx Publishing Services is a custom publishing company. Our prices are lower than other publishers for we do all our own work. Their prices are higher and delivery slower than ours for they use an outside company. With custom books only the information and order of presentation that you want are provided. These books can be lab manuals, texts, workbooks, power-point presentations, course hand-outs, lecture notes, field guides or combinations. We do books for any course or discipline. A disc can be attached to the inside back cover. If material – either text or image – is needed for a book, it can be sent to you in a folder thru We-Transfer. The folders are available in Biology, Chemistry and Physics. Let us know what you want to use from the folder. We will obtain the copyright permissions from lab supply companies, journals and/or other professors. These are the only sources that we use. There is no charge for these extra services.

When creating a book send us your completed manuscript files in PDF and WORD or what other program that you are using. The files will be reviewed carefully for pagination, lay-out and design and then returned to you before publishing. After you have approved your manuscript for publishing, we will produce and get your books to your campus in 7-10 days, additional copies in 3-5 days. The majority of our books cost from \$3 to \$20 to the bookstore or the department. We are a licensed vendor for Follett and Barnes and Nobles. The bookstore is given exclusive sales rights and can be on or off campus. For unused books, 20% of the sales order can be returned. Print shops do not allow returns. Our minimum quantity is 25 copies a year, about 10 copies a term. There is no written contract to work with us. You are given the copyright ownership of your book, which means that we can never publish, sell or change your book without your permission.

Our quick turn-around time gives faculty time to write and edit every semester. The biggest savings is to the students, who pay a fraction of the cost compared to traditional publishers. My goal is to match your needs with our services and to provide a seamless process that makes publishing easier.

Key benefits of working with Academx:

- We provide all publishing services – manageable schedules, quicker turn-around, superior quality and on-time delivery; all at a reduced cost to students.
- We give you options from types of bindings, color printing and perforated pages to pockets in the back of the book.
- We carefully review your manuscript and files for correct pagination, design and page-layout, and create a title page, copyright page and table of contents, which will correspond to the actual printed page numbers.

- We offer custom covers that are professionally designed at no additional cost.
- We make it possible to make changes every semester or as often as your course needs change.
- We provide free instructor/desk copies to faculty and TAs.
- We have no restrictive contracts.
- We secure permission for the use of copyright material.
- We give the copyright to you with a unique ISBN number.
- We provide a royalty. The amount and the designee determined by you.
- We communicate with the campus bookstore to keep orders on track and re-orders quickly processed and delivered.
